

QUALITY POLICY

Production Logix, one of South Africa's leading Electronics Manufacturing Services (EMS) providers, offers a full range of manufacturing services including prototyping, surface mount assembly, through hole assembly, complete box assembly and full turnkey solutions.

We are committed to:

- Providing customers with assembled Electronic Modules and Service that will continually meet and exceed our customers' requirements with respect to quality, price and speed.
- Achieving customers and other relevant stakeholder's requirements by implementing a quality management system that complies with ISO9001:2015 and AS9100, which is integrated into the business processes.
- Monitoring and evaluating our suppliers to ensure that the goods and services we receive comply with our customers and our internal requirements with respect to price, quality, authenticity and speed.
- Compliance to Production Logix, Customers and Statutory and Regulatory requirements
- Applying Good Manufacturing Practices and remaining environmentally conscientious.
- The continual improvement of our QMS with focus on ensuring that risks and opportunities that can affect conformity are determined and addressed.
- Ensuring that all employees are responsible for quality of work, accomplished by setting quality objectives at all levels of the organisation, which are measured periodically.

COMMUNICATION OF OUR QUALITY POLICY TO ALL EMPLOYEES IS IMPERATIVE INCLUDING THE REVIEW OF THE QUALITY POLICY TO ENSURE THAT THE QUALITY POLICY REMAINS RELEVANT TO
